3 Product description

3.1 Software function

Memobase Plus is a software package offering central management of measurement data, calibration data and sensor data for sensors with Memosens technology.

It allows end-to-end documentation of data relevant to the sensor and measuring point, e.g.:

- Calibration history including information on the reference solutions used
- Sensor utilization data such as total operating hours, operating hours under extreme process conditions
- Assignment of a sensor to a measuring point or a group of measuring points

The MemoLink sensor terminal box only transmits data digitally so no measured data can be corrupted. The measuring signal is converted to digital data in the sensor, which means that the MemoLink sensor terminal box, cable and PC software do not affect the measured values.

3.1.1 Licenses

The functional range depends on the order configuration.

The following functional packages are available:

License	Function range
Memobase Plus Basic	Measure, calibrate, document
Advanced diagnostics	Functional range of the "Memobase Plus Basic" license and also: <ul style="list-style-type: none"> ▪ Detection and assessment of sensor condition ▪ Multipoint calibration and adjustment of pH sensors ▪ Monitoring of defined limits for measurements and adjustments ▪ Data for Endress+Hauser reference solutions and sample data transferred via barcode
Pharmaceuticals compliance	Functional range of the "Memobase Plus Basic" license and also: Advanced user administration

3.1.2 User roles

To protect Memobase Plus against unauthorized or undesired modifications, you can allow database access only to certain users who have a database password, and assign user roles to these users.

You can use the following user roles:

	Administrator	Expert/Service	Maintenance	Operator	Restricted user
Calibrate (all parameters)		x	x	x	x
Change calibration settings		x			
Change client alias	x				
Change language of user interface	x	x	x	x	x

	Administrator	Expert/Service	Maintenance	Operator	Restricted user
Change language of reports	x	x			
Configure advanced diagnostics		x			
Activate automatic data export		x			
Determine settings for data export	x				
Configure diagnostic settings		x	x	x	
Database administration	x				
Global data access	x	x	x		
Local data access	x	x	x	x	x
Manage connected sensors (including deactivation)		x	x		
Manage license information	x				
Manage non-connected sensors (including deactivation)		x			
Manage reference solutions		x	x		
Scan testing and inspection equipment using barcode ¹⁾					x
Manage sensor templates		x			
Measure		x	x	x	x ²⁾
Set up barcode reader		x			

	Administrator	Expert/Service	Maintenance	Operator	Restricted user
Set up user interface	x	x	x		
Set up Master-Slave operation	x				
Set up connection to W@M Portal	x				
Use Master-Slave operation		x	x	x	
Set up connection to W@M Portal		x	x	x	
User administration	x				
View and export reports		x	x		
View audit trail log		x	x		
View sensor information		x	x	x	x

- 1) Calibration settings are locked
- 2) Can be measured only using the predefined method of measurement

4 Installation

 Information on how to install the MemoLink sensor terminal boxes and perform the electrical connection is provided in Operating Instructions BA01134C (MemoLink).

4.1 System requirements

System requirements for installation and use of Memobase Plus:

System requirements

Operating system	Windows 7 Service Pack 1 (32 and 64 bit) Windows 10 (32 and 64 bit)
Monitor	At least 1280×1024 pixel, also suitable for touchscreen
Processor	Minimum clock speed of 1 GHz Not a virtual machine
Free hard disk memory	At least 3 GB for the program and database
RAM	1 GB
USB	At least a type A USB interface At least USB 2.0

System requirements

Barcode reader

Supported interfaces:

- USB-HID interface
- USB-COM interface

The interface must be configured on the barcode reader.

Minimum resolution:

0.254 mm (10.0 mil)

Other

- CD-/DVD drive or internet access for program installation
- Adobe Reader
- Printer driver
- Microsoft .NET Framework 4.7

4.2 Installing the software

4.2.1 Installation wizard

The installation wizard contains the following functions:

- Step-by-step installation of the Memobase Plus software
- Update function to update the Memobase Plus software

▶ To update your Memobase Plus software, you should also start the installation wizard.

It is not possible to install on a virtual machine. You require administrator rights to run the installation. Please contact your system administrator if problems occur during the installation.

Only connect the USB cable and MemoLink sensor terminal box to the computer once the software has been installed successfully.

1. During the installation process, follow all the instructions step by step.
2. Select **Next** to continue the installation.
3. Select **Back** to return to the previous installation step (if possible).
4. Select **Cancel** to cancel the installation.

Windows license information:

If the license information is not retained following installation, proceed as follows:

- After installation, right-click the Memobase Plus desktop icon: "Run as administrator".
- Enter the license information again.
- Restart Memobase Plus.

The license information should now be retained.

4.2.2 Installing Memobase Plus

1. Insert the DVD into your CD/DVD drive. The installation procedure starts automatically if the Autostart function is enabled. If the Autostart function is not enabled, start the **Setup.exe** program in the main directory on the DVD.
2. Follow the instructions shown.

- ▶ Contact your IT department for a central server installation.

i Make sure your user name and password are stored in a safe place. If you lose this information it is not possible to recover the saved data.

1. Insert the DVD into your CD/DVD drive. The installation procedure starts automatically if the Autostart function is enabled. If the Autostart function is not enabled, start the **Setup.exe** program in the main directory on the DVD.
2. Follow the instructions shown.

- ▶ Contact your IT department for a central server installation.

i Make sure your user name and password are stored in a safe place. If you lose this information it is not possible to recover the saved data.

4.2.3 Activating the license

Functions of Memobase Plus that are independent of the sensor, e.g. user administration, are available following installation.

To be able to use the complete range of functions of the Memobase Plus version you have purchased, register your license via the Internet. This can be done on the PC or Windows-based tablet on which you installed the software or on any other PC or Windows-based tablet with Internet access. For this, you require the serial number and the license key on the back of the DVD cover.

i If you want to enter a new license key to extend a temporary license, for example, proceed as you would for a new license. The software does not need to be reinstalled and the database is retained and remains in operation.

1. Enter the serial number and the license key in step 1.

↳

Step 1

Please enter the serial number and the license key. You'll find this information on the CD/DVD cover. Afterwards press the OK button at the bottom.

Serial number: K9000105GYY

License key: CAAS 6DC7 40DB 9E74 2567 83A3

Step 2

With internet access on this computer:
Save the activation code to clipboard. Click on the following [link](#), to register the software online.
Without internet access on this computer:
Please use another PC and register under <https://www.software-products.endress.com/MemobasePlus>.
In both cases you will receive an unlock code. Enter the unlock code in step 3.

Activation code: _____

Step 3

Please enter the unlock code you have received per e-mail from Endress+Hauser. Afterwards the full functionality of Memobase Plus is activated.

Unlock code: _____

2. Click **OK**.
↳ The activation code is generated.

- Follow the instructions shown. You can copy the activation code to the clipboard via the **Copy to clipboard** button.

↳

The screenshot shows a three-step activation process:

- Step 1:** A dialog box with a green checkmark icon. It contains the instruction: "Please enter the serial number and the license key. You'll find this information on the CD/DVD cover. Afterwards press the OK button at the bottom." Below this are two input fields: "Serial number" with the value "K9000105GYY" and "License key" with a grid of values: CAA8, 6DC7, 40DB, 9E74, 2567, 83A3.
- Step 2:** A dialog box with a yellow warning icon. It contains instructions about internet access and a link to register online. Below is an "Activation code" field with the value "572FAA7C14982635DEBB2F73CF796A88C889E44C2E3A9B" and a "Copy to clipboard" button.
- Step 3:** A dialog box with a yellow warning icon. It contains the instruction: "Please enter the unlock code you have received per e-mail from Endress+Hauser. Afterwards the full functionality of Memobase Plus is activated." Below is an "Unlock code" field with a grid of values: LYCAA, JVAPF, 2NVAY, 6GYAJ, K2KQG, Y4EX6].

- Click the link in step 2.

↳ The software opens a window for activating the software.

- Enter your activation code and follow the instructions shown. If you have copied the activation code to the clipboard, you can paste it using the CTRL + V key combination.

- Enter the activation code in the **Unlock code** field. Endress+Hauser will have sent you this code to the e-mail address you specified.

↳

The screenshot shows a three-step activation process:

- Step 1:** A dialog box with a green checkmark icon. It contains the instruction: "Please enter the serial number and the license key. You'll find this information on the CD/DVD cover. Afterwards press the OK button at the bottom." Below this are two input fields: "Serial number" with the value "K9000105GYY" and "License key" with a grid of values: CAA8, 6DC7, 40DB, 9E74, 2567, 83A3.
- Step 2:** A dialog box with a yellow warning icon. It contains instructions about internet access and a link to register online. Below is an "Activation code" field with the value "572FAA7C14982635DEBB2F73CF796A88C889E44C2E3A9B" and a "Copy to clipboard" button.
- Step 3:** A dialog box with a yellow warning icon. It contains the instruction: "Please enter the unlock code you have received per e-mail from Endress+Hauser. Afterwards the full functionality of Memobase Plus is activated." Below is an "Unlock code" field with a grid of values: LYCAA, JVAPF, 2NVAY, 6GYAJ, K2KQG, Y4EX6].

7. Click **OK**.

- ↳ You can now access the range of functions of the Memobase Plus license you purchased.
Your activated Memobase Plus licenses are displayed under **SETUP > LICENSE > Features** in the **Active features**.

Active Features

Select one or more features to remove the corresponding license keys

Feature	License key	Valid until
Memobase Plus (basic)	CMA8 60c7 40D8 9E74 2567 83A3	Unlimited
Pharma Conformity	18A6 7865 87B7 49D8 498E 8117	Unlimited
Advanced Diagnostics	DACC 5060 5450 87B7 5AFD 8D39	Unlimited

4.3 Updating the software

The installation wizard of the Memobase Plus software contains the update function with which the Memobase Plus software can be updated.

Therefore, if you want to update your Memobase Plus software you should also start the installation wizard. Follow the instructions of the installation wizard, see the "Installing the software" section.
